Decision needed to continue using Charm the day we leave for Florida. Requested a quote on invoicing. Lieston likes the idea of using charms again, and connie likes it for ease of use. It is a lot easier for parents to track student credits and questions would delin from lieston. chastity agrees another year would be worth it. If amt is around \$300, we are going to go ahead and pay it. Monica and Chuck motion, all in favor.

### Director's Report

David Leisten – Band

Florida trip: as of today, we are planning on going to disney. hoping we get on the other end of the corona virus before we leave. parents can make the ultimate decision on if they go until bigger entities cancel. have to wait and see. no benefit to canceling right now. already have disney tickets in hand, unsure if disney would return, but unsure how a cancelation would effect the trip. everyone has post departure insurance. have had a student end up not going and the family was refunded a good poriton of what was paid, but that was years ago. currently in wait and see mode, will rehearse. talked to carmela today and both plan on going as of today. too late for full insurance. currently hoping for the best.

new business: leiston has a request for \$409 for color guard for thier budget for flags as we can possibly reuse in the fall and winter. trying to keep dues the same as last year and this will help.
